SUMMARY

Software Engineer with 4+ years of experience in full-stack web and mobile app development using React, React Native, Next.js, Node.js, NestJS, AWS, Firebase, SQL, and NoSQL databases. Committed to building scalable, high-performance solutions and delivering useful product features.

EXPERIENCE

Software Engineer | Softpers Interactive | Sep 2025 – Present

- Contribute to full-stack product development and delivery, collaborating through pull requests, reviews, and QA workflows.
- Work on Hilo AI product enhancements and feature delivery, implementing and refining features across multiple pull requests.
- Improve administrative workflows through automation and optimization, including all-student module operations for Admin users.

Software Engineer | OCloud Solutions, Lahore | Jan 2024 – Aug 2025

- Led full-stack development, aligning front-end and back-end systems to optimize functionality and user experience.
- Deployed applications to Firebase, Heroku, Netlify, AWS EC2, and Render using CI/CD pipelines powered by GitHub Actions.
- Managed complete project lifecycles; integrated Firebase Authentication; built low-code applications and n8n workflows; reviewed code and optimized performance.
- Engineered secure APIs and database schemas using NestJS and mentored junior engineers.

Associate Software Engineer | OCloud Solutions, Lahore | Dec 2022 – Dec 2023

- Built front-end applications using React.js and Next.js and collaborated on full-stack projects with Node.js and NestJS.
- Created a veterinary API for patient records, scheduling, and filtering; implemented secure JWT and Express authentication.
- Improved team delivery through strong collaboration and practical development workflows.

Frontend Engineer | UpWork (Freelance) | Nov 2021 – Nov 2022

Developed responsive, user-focused web and mobile interfaces using React Native, Next.js, and AngularJS. Built reusable UI components, optimized performance and accessibility, and delivered projects for international clients.

SELECTED PROJECTS

Pump — Real Estate Lead Management & Deal Pipeline Platform

Next.js, TypeScript, Supabase, PostgreSQL, Drizzle ORM, Google Gemini AI, Redis
Real estate investor CRM with CSV and skip-trace imports, list stacking, drag-and-drop deal pipelines, and AI-powered death scrub checks. app.pumpstacker.com

Hilo AI — AI-Powered Flight School Management Platform

Next.js, TypeScript, PostgreSQL, Prisma, Firebase, OpenAI, Stripe, Tailwind, Shadcn
Student, instructor, and admin features for flight scheduling, LMS, course building, AI assistance, permissions, and payments. app.hilo.ai

Knowlej — AI-Powered Education Platform

Next.js, Node.js, PostgreSQL, OpenAI
AI-powered education platform with role-based school features, quiz generation, attendance, and student challenge tracking.

Experios — Immersive Escape Room Platform

React, SCSS, Node.js, Express, MongoDB
Online escape-room experience with immersive challenges and collaborative gameplay.

EDUCATION

Bachelor of Science in Computer Science | National University of Computer and Emerging Sciences, Islamabad, Pakistan

TECHNICAL SKILLS

Frontend: React, React Native, Next.js, JavaScript, TypeScript, Bubble.io
Backend: Node.js, Express.js, NestJS, REST APIs, n8n
Databases: MongoDB, PostgreSQL, DynamoDB
Cloud & DevOps: Firebase, AWS, Git, GitHub Actions, Netlify, Heroku

AWARDS & LANGUAGES

Multiple-time Employee of the Month – OCloud Solutions
English, Urdu, Punjabi
